

MicroNutrient Testing for Nutritional Deficiencies

MicroNutrient Testing:

SpectraCell's MicroNutrient Testing is a clinically effective diagnostic tool for the prevention and management of chronic disease conditions. There is overwhelming evidence confirming that nutrient deficiencies have been shown to suppress immune function contributing to chronic disease process including cardiovascular disease, diabetes, arthritis and Alzheimer's.

Comprehensive Nutritional Panel

Comprehensive Nutritional Panel				
Vitamins	Minerals	Amino Acids	Antioxidants	Carbohydrate Metabolism, Fatty Acids & Metabolites
Biotin	Calcium	Asparagine	Alpha Lipoic Acid	Carnitine
Folate	Copper	Glutamine	Coenzyme Q10	Choline
Pantothenate	Magnesium	Serine	Cysteine	Chromium
Vitamin A	Zinc		Glutathione	Fructose Sensitivity
Vitamin B1			Selenium	Glucose/Insulin Metabolism
Vitamin B2			Vitamin E	Inositol
Vitamin B3			Spectrox™ (Total Antioxidant Function)	Oleic Acid
Vitamin B6				
Vitamin B12				
Vitamin C				
Vitamin D				
Vitamin K
